

Celebrity Pump Manifesto

1. Preamble

Celebrity Pump is born to fuse the passion and fandom of the world's most renowned celebrities with the collaborative economy of tokens. Here, every fan becomes an investor and every token a badge of belonging.

2. Popular Empowerment

Every follower has the right to vote, propose new celebrities, and decide on launch mechanics. Your voice drives the project.

3. Radical Transparency

All token issuances are public, viewable on-chain and via our real-time dashboard—no hidden fees.

4. Democratized Ownership

No privileged “whales”: every user participates under the same rules and pricing, fostering true fairness.

5. Guaranteed Fair Launch

We only list tokens with a fair launch: zero presales, zero insiders, and a single-block mint open to everyone.

6. Fixed Micro Supply

Each celebrity token is minted in a batch of 5,000 units, preserving scarcity and driving dynamic market activity.

7. Community Governance

Forums, on-chain voting, and proposal mechanisms empower you to shape future features, drops, and special events.

8. Financial Literacy

We educate about memecoins—their origins, risks, and opportunities—because even playful tokens demand responsibility.

9. Security & Integrity

Smart contracts undergo rigorous audits. Whitelists and anti-dump limits protect the community from abusive tactics.

10. Global Inclusion

Multi-language interfaces and collaborative translations ensure everyone, everywhere can join in.

11. Social Impact & Charity

A portion of every drop is allocated to social causes chosen by community vote—bridging fame with real-world impact.

12. Epilogue

Celebrity Pump is more than a marketplace for celebrity tokens: it's a movement that unites fandom, trading, and purpose. Welcome to the new stage where your passion drives value and transforms community.
